CONTRACTORS'
HORSE POWER HOIST,
NO. 1.

PATENT GRANTED SEPT. 21st, 1886.

MANUFACTURED BY

ROBERTSON BROTHERS,

Manufacturers, Contractors Steam Horse and Hand Hoists and Derrick Fittings.

WELLAND, - ONT.

Although some improvements have beeen added since it was taken, the above cut fairly represents our No. 1 Horse Power Hoist for Contractors' use, with our Improved Friction Clutch, and having two Drums.

OUR IMPROVEMENTS.

Which are embodied in this machine as well as in our Steam and other Horse Hoists are such as to give them many advantages over all others in the market, and need only to be known to be appreciated by those who use such machines.

Correspondence Solicited. - *Estimates Furnished on Application.*

WINDSOR. An important incorporated town on the bank of the Detroit river, immediately opposite to the city of Detroit, Michigan, in East Sandwich tp, Essex Co, 2 miles north-east of Sandwich, the county seat, with which it is connected by a street railway. It is the western terminus of GW div GT Ry, and of the Canada div MCRR, both these lines having powerful steam ferries for conveying their cars across the river which is thus kept open during winter. It was laid out in 1834, and now has several important manufacturing industries, and contains Episcopal, Catholic, Baptist, Methodist, Presbyterian and Bible Christian churches, model, high, public and separate schools, a convent, an opera house and town hall, three banks and 3 weekly newspapers, the *Essex Record*, the *Essex Review* and *Le Progress*. Assessed valuation of real and personal property, $2,440,090; bonded indebtedness, $410,000. The town is lighted with gas, has an excellent water supply, a fire department, and telephone communication with the Ontario and Michigan systems.

MONTREAL.

The Commercial Metropolis of the Dominion of Canada, is situated on an island about 30 miles long by 10 wide at the confluence of the Ottawa with the St Lawrence rivers, in Hochelaga Co, Province of Quebec. It is the head of ocean navigation, about 300 miles above salt water and is the beginning of the fresh water navigation of the great rivers and lakes extending to Duluth, Minnesota, USA,—at head of Lake Superior 1,500 miles distant. The city was founded in 1642. It is the principal port of entry in the Dominion of Canada, and is accessible to craft of 3,000 tons burden. It was incorporated a city in 1833. It has some magnificent public buildings and contains more ecclesiastical, educational and charitable institutions than any other city of its size on the continent. The Notre Dame Cathedral is noted for its size and architecture and has a seating capacity of 15,000, and has a chime of eleven bells, the "Gros Bourdon," being one of the five largest bells in the world.

Of the educational institutions, the McGill University takes the lead and was founded

in 1813; there are many other large colleges and numerous convents and private schools. The two principal hotels are the St Lawrence Hall and the Windsor.

The harbor is among the best equipped in the world, having a frontage of 4 miles of unbroken line of wharves built of massive cut stone. The railroad facilities are extensive, and with the ocean and river navigation, provides direct communication with all parts of the continent. The general offices of the Grand Trunk Railway and Canadian Pacific Railway are located here. Assessed valuation of real property, $103,000,000; realty, exempt from taxation, $18,000,000; funded debt, $13,000,000. Express, Dominion, Canadian, United States and American. Telegraph, GNW, CPR and CM. Population, 200,000. Guillaume La Mothe, postmaster.

Telephone No. 27. *Established 1841*

THOROLD HYDRAULIC CEMENT MILLS,

JOHN BATTLE, Proprietor,

THOROLD, - ONTARIO.

OTTAWA, June 7, 1884.

DEAR SIR,—I duly received your letter of the 1st ultimo, requesting my opinion relative to the Cement manufactured at your establishment in Thorold, in reference to which the following is respectfully submitted: For the past *forty years* the natural Hydraulic Cement obtained at Thorold, Province of Ontario, has been used to my knowledge, on various extensive public works, and in every instance the result has proved highly satisfactory. When properly burned, ground fine, and used fresh from the mill, it will compare favorably with any natural or artificial cement I know of for building or other purposes in a moist position, or for walls that have been built a few weeks before water has been let in on them. It is well adapted for concrete foundations, walls, drains, cisterns, or indeed, for any hydraulic works: when properly prepared and mixed with two parts of clean sharp sand to one of cement, the result will invariably give good satisfaction. I am, sir, yours very truly,

JOHN BATTLE, ESQ., Cement Manufacturer, etc., Thorold, Ont.

JOHN PAGE, Chief Engineer of Canals, Canada.

QUEBEC, MONTREAL, OTTAWA & OCCIDENTAL RAILWAY.
CHIEF ENGINEER'S OFFICE,

JOHN BATTLE, ESQ., Thorold: MONTREAL, March 31, 1881.

DEAR SIR,—I have tested with Reihle's Testing Machine the tensile strength of six blocks made from the barrel of Thorold Hydraulic Cement which you sent me last summer. The blocks were made of neat cement, and were 1¼ inches square at the smallest part. Four of them were kept 23 days in air, and only broke under the following weights: No. 1, 420 lbs.; No. 2, 470 lbs.; No. 3, 436 lbs.; No. 4, 420 lbs.; averaging 437 lbs each, or 194 lbs. per square inch. The remaining two were kept one day in air and forty-seven in water, and broke under the following weights: No. 5, 420 lbs.; No. 6, 450 lbs; averaging 435 lbs. each, or 193 lbs. per square inch. Yours truly,

P. A. PETERSON, Chief Engineer, Que ec, Montreal, Ottawa & Occidental Railway.

THE THOROLD CEMENT is sold by the following dealers;

Toronto.—Edward Terry, 25 George Street.
" Robert Carroll, 66 Adelaide St. West.
" Joseph Adamson, Esplanade, foot of George Street
Hamilton.—W. A. Freeman, James Street.
" W. J. F. Gordon James Street.
London.—A. D. Cameron, Burwell Street.
" Bowman & Co., 246 Bathurst Street.

Fitz-Patrick & Fraser, HAMILTON, ONT.

THE AIM OF THE
St. Catharines Business College

IS TO BE THE MOST PRACTICAL AND THOROUGH AMONG THE BUSINESS SCHOOLS OF CANADA.

Business men in need of Corresponding, Shorthand, Clerks, Book-keepers or Assistant Book-keepers, are requested to address the Principal. Under such circumstances none but those whom we know to be entirely competent will ever be recommended.

W. H. ANGER, B.A., Principal.

W. C. HIBBARD, MONTREAL.

Mnfr. of ELECTRIC WIRES, CABLES, Instruments and Supplies of every description. (See adv't front page VI.)

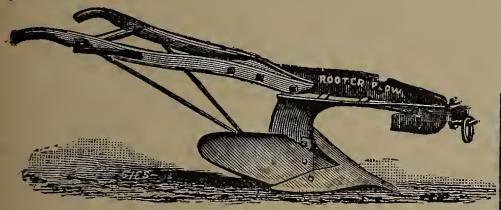
We can confidently state that our machines are the best in the market, and would refer you to the testimony of those who have them in use.

DOBBIE & STUART,

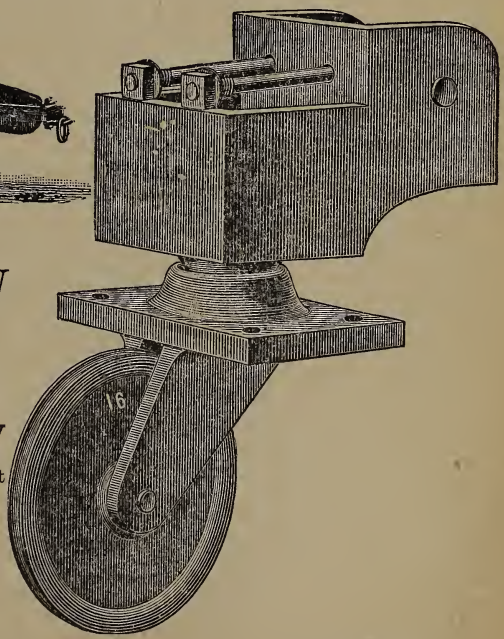
THOROLD IRON and BRASS FOUNDRY and MACHINE WORKS.

Manufacturers of a Full Line of

Contractors' Plant,



SUCH AS



DERRICK HORSE-POWERS,
DERRICK CASTINGS,
PLOWS, SCRAPERS,

ETC., ETC.

We beg to present to Contractors, Quarrymen and Builders a patented Horse-Power with Boom Hoisting Attachment, a powerful machine, far surpassing anything of the kind in the market. With this machine a horse can raise eight or ten tons, and the boom operated at the same time. For Building purposes it has no equal. We also manufacture Single Drum Powers without the Boom Hoisting attachment. They are the smallest, neatest, cheapest, easiest handled, most durable and lightest working machines ever brought before the public. Write for particulars.

OUR CONTRACTORS'

ROOTER PLOW

Is acknowledged throughout America to be the

STRONGEST, BEST
and CHEAPEST PLOW

In use for Canal and Railroad grading. It has been used for several years, and has frequently been tested by 8 or 10 large horses in stiff clay, hard pan, cemented gravel and shell rock.

Correspondence Solicited.

THOROLD, - ONT.

The object of machinery is to lessen manual labor, and in the invention of our machines we claim to aid the Contractor largely in that respect.

CALEDONIAN FIRE INSURANCE COMPANY
OF EDINBURGH. Founded 1805.
TAYLOR BROS., Chief Agents, 45 St. Francois-Xavier St. MONTREAL.

TRYPOGRAPH
By this machine thousands of copies of Writing, Music or Drawing, are made from one original.
GEORGE BENGOUGH, 36 King St. East, Toronto.

ESTABLISHED 1860.

HEADQUARTERS.

THE

DRESS CUTTING SCHOOL.

CUTTING TAUGHT BY OUR

New and Perfect Tailor System

Of Square Measurement (late Prof. Moody's), for cutting Ladies' and Children's garments of every description.

It drafts direct on the material, requiring neither paper nor pattern, teaching three distinct courses.

1st. General Dress Cutting.
2nd. Advance course Dress and Mantle Cutting.
3rd. Dressmaking and Cutting in all its branches.

Time not limited, perfect satisfaction guaranteed. Tuition given both by Ladies and Gentlemen.

Our system of cutting is now without a rival, being improved and made easy late as June, 1888. Get our New Book on Dressmaking, by Prof. Moody. Send for illustrated circular.

AGENTS WANTED.

J. & A. CARTER,

372 YONGE ST., COR. WALTON ST., TORONTO.

Practical Dressmakers, Cutters, and Milliners. Tailor Made Suits our Specialty.

☞ TAILORS TAUGHT TO CUT GENTLEMEN'S GARMENTS BY MADDISON'S SQUARE, OF NEW YORK

If you want to travel cheaply and comfortably, see your ticket reads via the Canadian Pacific Railway

The Gas Consumers' Benefit Company

OF CANADA.

SOLE AGENTS IN CANADA FOR THE

"Jackson" Automatic Gas Burner,

And all Goods manufactured by the Gas Consumers' Benefit Company of the United States.

FACTORY: 21 JANE STREET, NEW YORK.

Dealers in all kinds of Foreign and Domestic Specialties and Novelties.

CORRESPONDENCE AND AGENCIES SOLICITED.

This is a gas burner constructed on scientific principles, and is so made that it both prevents the waste of gas and secures absolutely perfect combustion. It will burn no more gas under high pressure than under low.

It burns brilliantly and steadily, and will not smoke.

It attains perfect combustion.

Is handsome, simple and effective, and will not get out of order.

It developes all the illuminating power of the gas.

In brief, the Jackson Gas Burner gives more light for the amount of gas consumed, than any other burner in the world.

Head Office: 1776 NOTRE DAME ST., MONTREAL.

Branch Offices in QUEBEC, OTTAWA, KINGSTON, TORONTO, HALIFAX, LONDON, HAMILTON

THE LATEST IMPROVEMENT IN
Harness Sewing Machines.
The New Standard, Lock-Stitch, Wax Thread,
HARNESS SEWING MACHINE!

The only machine sold in the United States which, with Waxed Thread, makes the Double Thread, Lock-Stitch. Alike on Both Sides, and pronounced by some of the best Harness Manufacturers in the United States, "EQUAL TO HAND SEWING."

Suitable for all grades of Harness, in Plain Raised and Waved Sewing. Uses Threads from 3 to 10 Cords, Stitching from 5 to 14 to inch, with either Dry Thread, or Solution or Hard Wax. Specially suitable for Custom Shops. No special knowledge required to operate successfully. References permitted to some of the leading harness manufacturers in the United States. Send for Samples of Work, Catalogue and Testimonials.

JOHN O'FLAHERTY,

FIRE HOSE {Railway, Mill and Engineers' Supplies} FENWICK & SCLATER MONTREAL. All Descriptions.

METALLURGY.

I. D. DEWAR, 66 AND 68 PEARL ST., TORONTO, ONT.

The only Holder of a Medal and First Prize for Anti-Friction Metal in Dominion of Canada.

Metallurgy is the science of extracting metals from their ores, and preparing them for the artisan and manufacturer. A thorough knowledge of the above necessitates long study and experience. But we have to treat principally with the chemical action and affinity of one metal for another, involving the phenomena during the different stages of refining, alloying and separating. Since the days of Tubal Cain, this science has progressed but slowly in comparison to the sister science of mechanics, which has progressed rapidly during the last half century; this progress in mechanicism has caused the metallurgist to devise a metal more suitable than brass for machinery bearings, etc. Now to obtain this: 1st, you must have a metal that will not shrink or liquidate in cooling; whereas the moulder of a brass bearing can allow for shrinkage in cooling, the machinist cannot, as when he fills a box with metal that shrinks in cooling, his lining is always loose, and if there be any pounding is apt to stave up and break, causing the generation of heat; 2nd, the metal must be as durable as brass, and of a lubricating nature; 3rd, for the convenience of the machinist, to fuse at a low temperature, and to keep in a state of fusion for a considerable time, so that the machinist may cast as many boxes as he has the metal prepared for, thus avoiding reheating; and 4th, that it will resist heat by friction, and need at least ⅓ less oil than brass.

DEWAR'S PATENT ANTI-FRICTION METAL is the most perfect article that has as yet been placed upon the market. It melts at a lower temperature than tin, which has the lowest point of fusion of any of the useful metals, and in fact it can be run into a bearing at a heat that would only brown a piece of note paper. Its most marked peculiarity is that heat cannot be generated from it by friction, and when in a state of fusion cannot be oxidized, but at a cherry-red heat it becomes refractory. I also guarantee it to run with at least ⅓ less oil than any others on the market, and owing to its low point of fusion it is easy to work with, and running machinery can be treated with it almost instantly. I also guarantee it will not shrink when cooling, and will flow up sharp in the thinnest lining required in a bearing, etc., and that no metal is sold by me but is guaranteed to be a tin-copper alloy. In proof of the above, the points of fusion of the following metals are:—

Iron	fuses at	2,786°
Copper	"	1,096°
Lead	"	612°
Antimony,	"	just below redness.
Tin,	"	442°

By being properly alloyed they will fuse at 400°

Bismuth	fuses at	497°	parts 2
Lead	"	612°	" 1
Tin	"	442°	" 2

By being properly alloyed this will dissolve in boiling water.

This proves that let a metal have ever so high a point of fusion, and power of conducting heat, that when properly alloyed with one or more metals, they will fuse at a much lower temperature than any of the substitutes, and the power of conducting heat will be neutralized.

A metal of the above description is easily known, as the fracture is homogeneous, and shows no sign of crystallization. Whereas when a metal shows signs of crystallization, it is improperly alloyed, and when fused throws off a certain amount of its constituents in oxides, which has a tendency to weaken the metal and make it unsuitable for machinery purposes.

The following are a few of my customers I would refer to for information as to the popularity of my metal for all mechanical purposes, etc.: Central Ontario Railway, Trenton, Ont.; Toronto Bridge Co., Limited, Toronto, Ont.; J. Perkins, Toronto, Ont.; G. T. Pendrith, Toronto, Ont.; Westman & Baker, Toronto, Ont.; Haggart Bros., Brampton, Ont.; MacGregor, Gourlay & Co, Galt, Ont., etc., etc., etc.

Automatic Refrigerator Company

OF OTTAWA,

MANUFACTURERS OF

HANRAHAN'S PATENT

REFRIGERATOR

Specially adapted for the preservation of Fresh Meats, Fish, Milk, Butter and other perishable articles,

A Thorough Circulation of dry, cold air.
No one article will take taste from another.
All are kept in the same chamber.

TESTIMONIAL FROM DEPT. OF AGRICULTURE.

OTTAWA, ONT., *Nov. 29th, 1886.*

SIR,—I have to inform you in reply to your enquiry respecting the Refrigerators fitted on board the steamships "Sardinian" and "Vancouver" by order of the Minister of Agriculture, under your patent, for the transit of Canadian fruit in cold storage for the Colonial and Indian Exhibition in London, that the results have been in all respects satisfactory, and have fully answered the anticipations which were formed. These Refrigerators under your patent have given, by the Automatic Process claimed for them the condition of dessication and refrigeration, such being necessary for preserving delicate fresh fruits for a considerable length of time without injury to their natural state.

I have the honor to be, Sir,

Your obedient servant,

J. F. HANRAHAN, ESQ., *Wellington St., Ottawa.*

JOHN LOWE, *Secretary Dept. Agriculture.*

OTTAWA—Head Office and Factory, 333-335 Wellington St.
TORONTO—Office, 63-69 Front Street.
MONTREAL—Office and Warerooms, 1749 Notre Dame St.

GRAVEL ROOFING.

H. S. PARMELEE,

BELLEVILLE, - - ONT.

This roofing is pronounced by my patrons the best in the Dominion, and especially valuable for mills and factories having large flat roofs.

I will furnish estimates for roofing in any part of Ontario. Samples of felt sent by mail when requested. All work done under my own personal supervision and guaranteed satisfactory.

CORNWALL, ONT., *Sept. 27th, 1887.*

H. S. PARMELEE, ESQ., BELLEVILLE, ONT.

DEAR SIR,—You have re-roofed our weaving mill, which is 600 feet long by 125 feet in width, with your patent 3-ply felt and gravel roofing. You have also covered a new goods warehouse just newly built, which is 175 by 68 feet with the same, and both are done in a most workmanlike manner. We believe these two roofs to be as perfect of their class as it is possible to make them, and that they cannot be surpassed by any in the Dominion of Canada. We are pleased to state that you fulfilled the conditions of your contract in every particular. Yours very truly,

THE CANADA COTTON MANUFACTURING CO.
PER D. MACINNES, *President.*

Parmelee's Asphaltic Roof Paint.

The Roof Paint which I manufacture has been in use in the United States for about ten years, and has given a satisfaction that has extended its sale across the whole country. Patented by my former employers (The T. New Mnfg. Co.) they have granted me the right to manufacture it in Canada.

It will entirely stop the Rusting of Tin and Iron Roofs.
It will stop the wearing away and decay of Shingle Roofs.

PRICES AND TESTIMONIALS FURNISHED ON APPLICATION.

H. S. PARMELEE,

BELLEVILLE, ONT.

J. S. HAMILTON & CO.

WHOLESALE

WINE MERCHANTS

AND

GENERAL AGENTS, BRANTFORD, ONT.

SOLE AGENTS FOR CANADA FOR THE

Pelee Island Wine and Vineyards Co., Ltd.

Vin Villa Vineyards, Pelee Island.

Fairfield Plain Vineyards.

Ayala & Co., Ay, France, Champagnes.

Wm. Younger & Co., Edinburgh, Ales.
A. Matignon & Co., Cognac, Brandies.
J. H. Heakes, Holland Gin, etc., etc.

THE MOST EXTENSIVE WINE FIRM IN CANADA.

ADDRESS ORDERS, **J. S. HAMILTON & CO.**
91, 93 and 95 Dalhousie St., BRANTFORD, ONT.

OUR PRICES FOR PELEE ISLAND WINES.

Prices quoted for Imperial Measure.

DRY CATAWBA—A fine light, dry Dinner Wine of fine boquet, and closely resembling the Sauterne of France and Rhine Wine of Germany.

SWEET CATAWBA—A choice, sweet, Champagne-flavored wine, same quality of wine as sparkling wines are made from.

ISABELLA—A delicious golden-colored wine, very choice, delicate in flavor, similar to the Malvoisie Wines.

ST. EMILION—A red wine, stout, rich and full-bodied, made from the Virginia seedling and Catawba grapes.

ST. AUGUSTINE—A dark, sweet red wine, produced from the Concord and Catawba grapes, containing only a small quantity of spirits, and especially suited for church purposes.

CLARET—A dry, heavy, red wine, produced from the Virginia seedling grape, a great favorite.

5 GAL. LOTS,	$1 50
10 GAL. LOTS,	$1 40
20 GAL. LOTS,	$1 30
BBLS. OF 40 GALS.	$1 25
CASES OF 12 QTS.	$4 50
24 PINTS,	$5 50

Where we have no agents for the sale of our Wines, orders sent us direct will have our prompt attention. All small orders, unless otherwise instructed, will be forwarded by express C.O.D., less 5 per cent discount, which in most cases will cover the express charges. Hoping that you will give our wines a trial either through our local agents or direct from our warehouses here, we remain, Yours truly,

J. S. HAMILTON & CO.
91, 93 and 95 Dalhousie Street, BRANTFORD, ONT

Sole Agents for Canada for the Pelee Island Vineyards.

Trade discount on our Wines enables local agents to sell at above prices adding freight.
